1	Chowdaiah, patel of Muppani, on behalf of villagers.	30th December 1919.	Represents that their lands being kept out of the proposed block and treating them as enclosures and also prays for free grazing in the Reserve and agricultural implements free.		I am agreeable	In sending up this proposal to Government for the issue of the provisional notification, the Revenue Commissioner observed that the provision for Gomal in Muppani was inadequate and that the settlement officer would look into this at the Settlement. Due consideration has been paid for the needs of the village in question. The proposal sent up by the Forest Department does not appeal to me as being satisfactory on account of the number of enclosures proposed to be included in the block. The Raiyats of Muppani in attendance protested vehemently against this enclosure treatment and asked for more grazing ground for their cattle and District Forest area for their leaf manure and other necessities. Due consideration was shown on these points also. On account of the narrowness of the tract, that will be available near S. No. 66 of Muppani it was considered impracticable to form the whole area into one continuous Block. The proposed area has, therefore, been divided into two Blocks 'A' & 'B' on both sides of this S. No. 66. I decide, therefore, to exclude all the proposed enclosures except the one called "Subbanamakki." Block 'A' to the west will consist of lands in Muppani, Aravadi, Mandavalli and 'B' to the east of lands in Aralgod, Brahmanavada Kopparige, Hangere and Muppani as shown in the Sketch accompanying and in detail in the boundary Notification. This settlement met with the approval of the people in attendance and of the District Forest Officer, Sagar, and Amildar, Sagar, who were present and helped me in the Settlement. Sufficient and more cultivation margin has been allotted all throughout. All recoguized rights of way are allowed. Raiyats of "Subbanamakki" included in the block as an enclosure will be allowed free grazing in the reserve block and all the villagers will get sufficient wood for agricultural implements and vate, etc., for fencing and other agricultural purposes. They will also continue to get timber for buildings under the Malnad Raiyats' Special Privilege Rules as modified by the Malnad Improvement Rules. "Subbanamakki" will get a cultivation margin of 3 chains alround. *A "Enclosure"*:—Survey numbers 44, 45, 46, 47 48 and 49 of Subbanamakki hamlet of Muppani village are clubbed together and treated as enclosure with a margin of 3 chains alround.
